tournistrip®

Single-Use Tourniquet

The only truly Single-Use tourniquet

Single-use

Unique design and construction to aid infection prevention and prevent cross infection.

Single-handed engagement and release

Can be released with a single hand, minimising contact.

Easy To Use

Easy to tension and adjust. Can be repositioned on the same patient up to 5 times.

Comfort

tournistrip® doesn't pinch the skin like "rubber band" designs.

Clinically Proven

tournistrip® is the only medical tourniquet to have been clinically trialled, involving two London Teaching Hospitals with 226 patients and 20 phlebotomists.

ANTT Product Endorsement

tournistrip® and tournikidz® are the only medical tourniquets to have ANTT Product Endorsement (PEP).

HEALTHCARE

Single-use Tourniquet

tournistrip[®] looks and operates like a conventional tourniquet. Its unique design and construction means the tourniquet is truly single use. It is easy to tension, adjust and can be repositioned on the same patient up to 5 times, release and removal is single-handed. All 3 actions can be performed single handedly.

tournistrip[®] is available to buy direct or through the NHS supply chain.
NHS supply chain code: FWJ060

Refillable tournistrip[®] Dispenser Mountable to a clinical trolley, to a wall or placed on a desk, with 100-tournistrip refills. Individual box dispensers are also available in 20, 50, 100 and 200 tournistrip[®] packs.
